## PARENT EXECUTIVE FUNCTIONING PROFILE SCORING

1. Add up the scores for each set of items, based on the item range listed in the table. Write the total in the corresponding "Total Score" box in the Parent Assessment Scores table.
2. Once all scores have been recorded, rank the scores from highest to lowest (i.e., 1 for the highest score, 2 for the next highest, and so on), in the "Rank" column.
3. Add up the total number of scores in each set of items (based on the item range listed in the table below) that are rated a "3" or "4." Write the total number of 3/4 items for each area in the corresponding space in the "Frequency" column.
4. Record the impact ratings for each section, in the "Impact" column.
5. Fill in the Profile Summary (below the Parent Assessment Scores table).

## CHILD EXECUTIVE FUNCTIONING PROFILE SCORING

1. Add up the scores for each set of items, based on the item range listed in the table. Write the total in the corresponding "Total Score" box in the Child Assessment Scores table.
2. Once all scores have been recorded, rank the scores from highest to lowest (i.e., 1 for the highest score, 2 for the next highest, and so on), in the "Rank" column.
3. Add up the total number of scores in each set of items (based on the item range listed in the table below) that are rated a "3" or "4." Write the total number of 3/4 items for each area in the corresponding space in the "frequency" column.
4. Record the impact ratings for each section, in the "Impact" column.
5. Fill in the Profile Summary (below the Child Assessment Scores table).
