

Ontario PC Party Campaign Response

(This was sent as an e-mail. CADDAC edited the e-mails into this PDF)

Thank you for contacting Premier Ford and sharing information regarding Attention Deficit Hyperactivity Disorder and your recommendations. We believe that Ontarians of all ages should be able to access high-quality and evidence-based mental health and addictions care. That is why we are the first government in Ontario's history to create a ministry of Mental Health and Addictions.

We are getting it done by investing \$3.8 billion over 10 years in support of the Roadmap to Wellness - our comprehensive plan to address the mental health and addiction needs of all Ontarians. One of the highlights of this plan is for the first time ever OHIP will cover an evidence-based cognitive behavioural therapy program for Ontarians aged 10 years and older called "mindability".

Since 2018, our government has invested a total of \$7.86 billion for mental health and addictions programs. Our total spending this year alone is over half a billion dollars in net new annualized funding to address mental health and addiction needs across the province.

Thanks again!

Ontario PC Party Campaign

This is CADDAC's reply back to the Campaign Office (No reply was received)

Thank you for your response.

Unfortunately, Mindability provides CBT for anxiety and depression only, despite the fact there is an abundance of evidence-based research proving the efficacy of CBT targeting ADHD specifically.

We will be sharing your response with the ADHD community.

Sincerely,

Heidi Bernhardt
